Coloured valance swags, roof and wall overlays can complement your colour theme.

Leg drapes are used to cover any framework to give a professional finish to the marquee.

**The interior of the marquee will provide the backdrop for your event.**

Cotswold Marquees stock an extensive range of linings. A touch of colour in the valance will complement your scheme or a plain ivory lining will act as a blank canvas, with your floral arrangements adding the colour.

Pleated ivory or white linings are the starting point for most events.

Starcloth ceilings provide a stunning twinkle effect over the dance floor area or throughout the whole marquee.

Our 'Ethnic' linings with a gold or red ceiling can be used as a back drop for a themed event or to create a 'chill out' space.

Fairy lights and uplights with coloured gels can transform the marquee for your evening event.

interiors

## Lighting

Silver, brass and wrought iron chandeliers, pendant lights, floor uplights, pin spots and outside lighting are all available to light your event to the best effect.

All lights can be on dimmers and all our electrical equipment is tested to meet current electrical regulations.

Cotswold Marquees have in-house manufacturing and cleaning facilities, so that equipment can be maintained to a high standard.

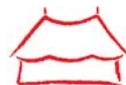

## Flooring

Wooden boarding is used to provide a solid floor in the marquees.

If a site slopes or is uneven, a raised, levelled floor can be installed.

New cord exhibition carpet, available in a range of colours, is then laid to give a quality finish.

Matting or interlocking composite tiles provide an alternative flooring option for a flat, level site.
